

PRODUCT DESCRIPTION

Solve your echo and reverberation issues with an Acoustics America Acoustic Panel. These fabric-wrapped, sound absorbing panels are available in a wide array of colors, sizes and thicknesses, and give you the freedom to absorb excess ambient noise according to your design and aesthetic needs. Once you mount these panels on your walls, you can listen clearly to the sounds that matter.

PRODUCT FEATURES

Maximum performance: Our panels are constructed with a high-density (6 PCF) fiberglass core, and wrapped in acoustically-transparent fabric. This high-density core offers excellent absorption for your most demanding treatment applications.

More colors: We offer our panels in 27 colors across 3 fabric lines:

- *Classic 700 Series* fabric line: 5 colors.
- *Acoustics America* fabric line: 19 colors.
- *Guilford of Maine Anchorage* fabric line: 3 colors.

More sizes: These panels are available in 20 sizes, from 12" x 12" (1' x 1') all the way up to 120" x 48" (10' x 4').

Multiple thicknesses: Our panels are available in two thicknesses for your unique treatment needs:

- 1" inch panels are an ideal for residential and light commercial applications.
- 2" thick acoustic panels are optimal for heavy commercial spaces such as large gathering areas, music venues, restaurants and open office perimeters.
- A 2 inch thickness will also help you achieve maximum absorption per square foot of space.

Multiple mounting options: We offer two different mounting options, tailored to your application.

- Impaling clips: Suitable for wall-mount applications. Easy to install and included with your order, by default.
- Rotofast™ Snap-On anchors: This mounting option is suited for both wall and ceiling direct-mount applications. This option also does not require adhesive.

Safety and peace of mind: These panels are Class A fire rated (the highest rating possible) for use in indoor applications.

Proudly made in the USA.

SOUND ABSORPTION AT VARIOUS FREQUENCIES
