

DESCRIPTION

Polyester acoustic hanging dividers are versatile and stylish solutions for managing sound and creating distinct spaces. Available in ten unique patterns, solid (plain) and custom, these room dividers not only elevate the aesthetic appeal of any space but also enhance acoustics by optimizing sound quality in acoustically challenged areas. Our PET dividing screens, featuring on-trend cutout designs, offer a whimsical way to divide large, open or shared spaces in office, medical, daycare, spiritual, or educational settings.

HIGHLIGHTS

- Precision cut
- Easy installation (no tools required)
- Lightweight

SUSTAINABILITY

- 100% recyclable
- 60% post consumer recycled content (recycled water bottles and similar PET material)
- Low VOC
- Odorless, non-toxic and safe to touch
- Highly resistant to moisture and humidity
- Resistant to fungi and bacteria

PERFORMANCE			
Mounting Method ASTM C423 / ASTM E795	NRC	SAA	Sabin/S.F
A	0.35	0.35	.35-.39

The specific mounting method used during testing can significantly affect the sound absorption data and the resulting Noise Reduction Coefficient (NRC) or Sound Absorption Average (SAA) ratings. Therefore, it is crucial to compare product performance data only when the same test method and mounting type are used, and the mounting type should be as close as possible to the real-world installation method.
