

## DESCRIPTION

Add texture, depth, and modern elegance to your environment with polyester waffle baffles — a suspended panel system designed to do more than just look good. These versatile ceiling baffles enhance acoustics by absorbing background noise, creating a quieter, more focused atmosphere.

Choose from 4 colors to bring your creative vision to life and either a square or radiused edge. Whether you're designing for a conference room, a shared office, or a space with soaring ceilings, Polyester Waffle ceiling baffles offer endless design possibilities. For added versatility, mix and match the color palette to create a look that's uniquely yours.

## HIGHLIGHTS

- Dampens background noise
- Easy installation (no tools required)
- Visually stunning decor

## SUSTAINABILITY

- 100% recyclable
- 60% post consumer recycled content (recycled water bottles and similar PET material)
- Low VOC
- Odorless, non-toxic and safe to touch
- Highly resistant to moisture and humidity
- Resistant to fungi and bacteria

## SPECIFICATIONS

### Material

Acoustical Felt/Polyester

### Size

48" L x 48" W

### Thickness

10mm (.394")

### Weight

12lbs radius / 13lbs square

**PET COLORS**

**BLACK**

**SANDSTONE**

**WINTER WHITE**

**ROYAL BLUE**

**OLIVE**

**MERLOT RED**

**MYSTIC CLOUD**

**LIGHT MARBLE  
GREY**

**HUNTER GREEN**

**GREY SKIES**

**HICKORY NUT**

**EGGSHELL BEIGE**

**DENIM**

**CARAMEL**

**CHARCOAL GREY**

**BLUE STONE**

<b>PERFORMANCE</b>			
<b>Mounting Method ASTM C423 / ASTM E795</b>	<b>NRC</b>	<b>SAA</b>	<b>Sabin/S.F</b>
<b>A</b>	<b>0.35</b>	<b>0.35</b>	<b>.35-.39</b>

The specific mounting method used during testing can significantly affect the sound absorption data and the resulting Noise Reduction Coefficient (NRC) or Sound Absorption Average (SAA) ratings. Therefore, it is crucial to compare product performance data only when the same test method and mounting type are used, and the mounting type should be as close as possible to the real-world installation method.
