

DESCRIPTION

Etched Acoustic Wall Tiles create architecturally engaging acoustic wall coverings for spaces that require effective noise control and sound absorption. Each custom tile is made from precision-cut polyester acoustic panels and ships in 2-3 business days. PET etched acoustic tiles feature refined v-groove detailing that adds depth, texture, and dimension to modern interiors.

HIGHLIGHTS

- Easy installation (no tools required)
- Lightweight & portable

SUSTAINABILITY

- 100% recyclable
- 60% post consumer recycled content (recycled water bottles and similar PET material)
- Low VOC
- Odorless, non-toxic and safe to touch
- Highly resistant to moisture and humidity
- Resistant to fungi and bacteria

SPECIFICATIONS

Material

Acoustical Felt/Polyester

Sizes

23.75" x 23.75"

47.5" x 11.875"

Thickness

10mm (.394")

Weight

1680 GSM

PET COLORS

BLACK

SANDSTONE

WINTER WHITE

ROYAL BLUE

OLIVE

MERLOT RED

MYSTIC CLOUD

LIGHT MARBLE
GREY

HUNTER GREEN

GREY SKIES

HICKORY NUT

EGGSHELL BEIGE

DENIM

CARAMEL

CHARCOAL GREY

BLUE STONE

PERFORMANCE			
Mounting Method ASTM C423 / ASTM E795	NRC	SAA	Sabin/S.F
A	0.35	0.35	.35-.39

The specific mounting method used during testing can significantly affect the sound absorption data and the resulting Noise Reduction Coefficient (NRC) or Sound Absorption Average (SAA) ratings. Therefore, it is crucial to compare product performance data only when the same test method and mounting type are used, and the mounting type should be as close as possible to the real-world installation method.
